Subject: Save Uber

To Whom it May Concern,

As a college student who is often in need of a safe, affordable ride at night I was shocked to hear that the PSC shut down Uber. I have used the app all around South Carolina, and have been satisfied with the service I was provided.

It really boils down to this: kids don't feel always safe taking cabs (we have friends who were drugged, raped, or mugged by cab drivers). If you don't want us to drive intoxicated or risk our lives walking home please don't ban Uber.

I can honestly say that Uber has saved me and my friends from making horrible decisions due to its convenience, affordability (about half the price of a cab), and safety measures (knowing the make and model of the car, the driver, and knowing that the driver could be identified with a simple call).

Please, rethink this idea to eliminate Uber. It means a lot more to us college kids than you would think.

Thank you,

Adams, Hope

To whom it may concern,

I ride uber very often in South Carolina. The rates are amazing, the drivers are nice and polite and I never feel unsafe. You're able to see the make and model of the car that's arriving and a picture of the driver. You have access to contact them and see exactly when they're arriving all features you can't with a taxi cab. My favorite is that no physical money is being exchanged, which makes me feel even safer. Uber is also easy to access anytime of the day. Why take away a company that the average person finds cheaper, easier and more comfortable with than a regular cab? The Uber cars are also much nicer and cleaner than a cab. I'd rather not travel at all if I can't use uber than pay excessive cab fees to cab drivers that don't even help with your luggage majority of the time.

Concerned and Active uber user,
Erykah

I have seen friends and coworkers choosing to not to drink and drive a lot more because of Uber because of its great service and fair pricing that is giving them more choice and making things easier. I truly believe they are keeping our streets safer and I think it will be seen in historical data of DUI's. I understand it is not an easy situation, but we need them.

Subject: Uber

Stopping uber takes away the only safe and convenient transportation service. Being a college student and a woman, I am scared to drive with taxis because more often than not the people are "sketchy" and not someone I would want to drive me. Also I have been driven by a drunk taxi driver more than once in charleston. If that had happened to über I could have rated him and told others of my experience. Uber is the only service that keeps all parties accountable. Leave uber alone!
